Cursor · Studio MCP · Slack · Discord
Confluence · AI asset generation

EXPERIENCE

DeepFox — Senior Tech Lead · Sep 2025-Oct 2026

Led 3 programmers and partnered with design, 3D, audio and product teams. Built Overture, standardizing architecture, reducing bugs and speeding development. Shipped 26 games; interviewed 38 candidates and hired 3. Ran daily stand-ups and technical knowledge sharing.

Indigo — Middle+ to Senior · Sep 2024-Sep 2025

Supported and optimized popular games; refactored code, refreshed visuals and updated mechanics with producers, 3D artists and developers.

Playton — Junior+ to Middle · Aug 2022-Jul 2024

Built games from briefs and supported acquired titles. Optimized and refactored code, updated mechanics, refreshed visuals and built environments.

CODDY — Intern · Sep 2021-Aug 2022

Created games from briefs, collaborated with a producer and built game environments.

SELECTED PROJECTS

PROJECT PORTFOLIO

Selected Roblox production work

01 Nightmare Survivors

Co-op survival / roguelite

ROLE	Gameplay and Systems Developer
CONTEXT	A four-player survival run split between a lobby and a separate nightmare place with escalating nights.
CONTRIBUTION	Gameplay systems, server-authoritative run architecture and persistent solo/party session flows.
KEY SYSTEMS	Party rejoin; versioned saves; configurable night scenarios; resources, crafting, base and buildings.
RESULT	Released Roblox experience with a complete repeatable night-survival loop.

OPEN ON ROBLOX

02 Strength Clicker

Simulator / progression

ROLE	Systems Developer
CONTEXT	A content-rich strength simulator with powers, pets, PvP and several parallel progression paths.
CONTRIBUTION	Development of modular progression, profile-backed data and live-content systems.
KEY SYSTEMS	ProfileService; powers and pets; quests, seasons and events; trades, clans and soft shutdown.
RESULT	Released simulator with several parallel progression paths.

OPEN ON ROBLOX

03 Build a Scam Empire!

Live tycoon / 49M visits

ROLE	Live Ops and Updates Developer
CONTEXT	A mature live tycoon with a persistent plot economy and broad progression and social systems.
CONTRIBUTION	Production updates and backward-compatible work across live data, economy and monetization.
KEY SYSTEMS	Workers and cards; merge, crafting and rebirth; offline income; corporations, raids and leaderboards.
RESULT	Live project with 49M visits at the time the portfolio was submitted.

OPEN ON ROBLOX

04 Upgrade Your Brainrot

Tycoon / idle economy

ROLE	Roblox Developer
CONTEXT	Players buy eggs, hatch income-generating units and upgrade their conveyor and base.
CONTRIBUTION	Development of gameplay and progression systems for the project.
KEY SYSTEMS	Egg rarity and timers; unit income; upgrade machines; offline hatching and evolution.
RESULT	Released collection tycoon with online and offline progression.

OPEN ON ROBLOX

05 Dig & Bomb: Brainrot Rush!

Mining / PvP tycoon

ROLE	Roblox Developer
CONTEXT	An explosive mining tycoon with staged terrain generation and a server-owned slot economy.
CONTRIBUTION	Service-controller gameplay, efficient mine resets, onboarding, offline rewards and live events.
KEY SYSTEMS	Dirty-chunk terrain restore; bomb camera; canonical income formula; FTUE; timed candy event.
RESULT	Released experience combining mining risk with tycoon progression.

OPEN ON ROBLOX

06 +1 Key +1 Jump for Brainrots

Flying / collection simulator

ROLE	Roblox Developer
CONTEXT	A vertical collection simulator with flight progression, disasters, Lucky Blocks and a unit base.
CONTRIBUTION	Movement, reward metadata persistence, slots and configurable special-unit abilities.
KEY SYSTEMS	Flight and rebirths; disaster runtime; Lucky Block reward pipeline; timed slot modifiers.
RESULT	Beta experience with a complete collect-return-upgrade loop.

OPEN ON ROBLOX

07 Dark Survivor

Horde survival / roguelite

ROLE	Roblox Developer
CONTEXT	A fast horde-survival game where players build weapon combinations and fight bosses.
CONTRIBUTION	Development of combat, upgrade and run-progression systems.
KEY SYSTEMS	40+ weapons and upgrades; scalable enemy hordes; bosses; build-based runs.
RESULT	Released Roblox horde-survival experience.

OPEN ON ROBLOX

08 Kinopoisk World

Branded entertainment hub

ROLE	Roblox Developer
CONTEXT	A cinema hub connecting standalone games inspired by Kinopoisk films and series.
CONTRIBUTION	Development of gameplay for branded worlds and standalone activities.
KEY SYSTEMS	Minigames; quests; UGC rewards; themed worlds; hub navigation.
RESULT	Released multi-experience branded Roblox world.

OPEN ON ROBLOX

09 Dig to Earth

Large-scale live game / 248M visits

ROLE	Live Ops and Updates Developer
CONTEXT	A released Roblox experience serving a large active audience.
CONTRIBUTION	Maintained the live project and delivered production updates.
KEY SYSTEMS	Work covered live-game maintenance and update delivery; detailed scope is not public.
RESULT	248M visits at the time the portfolio was submitted.

OPEN ON ROBLOX

PROJECT PORTFOLIO

Selected Roblox production work

10 Flying Wings

Live game / 32.2M visits

ROLE	Live Ops and Updates Developer
CONTEXT	A released Roblox experience with a multi-million player audience.
CONTRIBUTION	Supported the project and developed production updates.
KEY SYSTEMS	Live-game maintenance and update development; detailed scope is not public.
RESULT	32.2M visits at the time the portfolio was submitted.

OPEN ON ROBLOX

11 My Pet Jelly

Live simulator / 12.9M visits

ROLE	Live Ops and Updates Developer
CONTEXT	A persistent pet-growth simulator where the player's Jelly continues growing offline.
CONTRIBUTION	Maintained the released project and developed updates.
KEY SYSTEMS	Persistent progress; offline growth; global leaderboard; live updates.
RESULT	12.9M visits at the time the portfolio was submitted.

OPEN ON ROBLOX

12 Merge Brainrot

Merge simulator / live ops

ROLE	Live Ops and Updates Developer
CONTEXT	A progression simulator built around merging units into rarer forms.
CONTRIBUTION	Supported the released project and developed updates.
KEY SYSTEMS	Merge progression and live updates; detailed implementation scope is not public.
RESULT	Released Roblox project supported after launch.

OPEN ON ROBLOX

13 Sportik City

Branded experience / built from scratch

ROLE Roblox Developer

CONTEXT A branded game about Sportik created for Svyatoy Istochnik.

CONTRIBUTION Participated in end-to-end development of the project from scratch.

KEY SYSTEMS Tag minigame; gym activity; quiz; duel.

RESULT Released branded Roblox experience with four distinct activities.

OPEN ON ROBLOX

14 Dobry: Back to School

Branded world activation

ROLE Roblox Developer

CONTEXT A new seasonal activation for the existing Dobry Roblox world.

CONTRIBUTION Developed and shipped the activation as part of a multidisciplinary team.

KEY SYSTEMS Treasure hunt; quests; new UGC rewards; ships.

RESULT Seasonal content successfully released into the live branded world.

OPEN ON ROBLOX

15 Luana's Maze

Kinopoisk branded game

ROLE Roblox Developer

CONTEXT A standalone maze game created as part of the Kinopoisk collaboration.

CONTRIBUTION Developed the game as part of a multidisciplinary team.

KEY SYSTEMS Maze gameplay and themed standalone experience; further scope is not public.

RESULT Standalone game released inside the Kinopoisk project ecosystem.

OPEN ON ROBLOX

16

Brainrot Bowling

Bowling game / built from scratch

ROLE	Game Developer
CONTEXT	A Roblox game centered on bowling gameplay and Brainrot characters.
CONTRIBUTION	Built the project from the ground up through the full development cycle.
KEY SYSTEMS	Core bowling gameplay; detailed mechanics and media have not yet been provided.
RESULT	Complete project created from scratch; public link is available on request.
